# SUMMER READING Tracker

The Summer Reading Challenge is a chance for the whole family to share the joy of reading. Kids, teens, and adults have chances to win weekly prizes or one of three tablets from our summer sponsors. Track your reading minutes and earn badges in Beanstack or use a physical tracker, like this one, to log your reading minutes and the books you read.

Each bubble under the challenge badge represents 15 minutes of reading. Write the title of the book you are reading and bubble in the minutes read for each book. Most badges are earned after reading for one hour.
